Essential Agreements 2017

Essential Agreements are a powerful way of bringing out the best in individuals, small groups, year levels and the entire school. Essentially, they are a collection of positively framed statements devised by those who will be directly affected by them. Each class or grade begins the year by writing their own class Essential Agreement. It allows the students to discuss the type of actions and attitudes they need to have to achieve success in their learning both individually and collaboratively.

Below are the statements your child helped develop in their classroom and agreed to follow in 2017.

In 3DB, we will:

- Co-operate and work together **productively**
- Be curious **and show initiative when** learning new things
- Be prepared to make mistakes and learn from them.
- Show respect **to others including** yourself
- Make wise choices to support your learning.
- Be open-minded – Listen to, consider and value other perspectives.
- Be confident **within yourself**
- Be persistent and stay on task
- Include people if they look excluded. **Be inclusive of all students when in and out of the classroom**
