Essential Agreements 2017

Essential Agreements are a powerful way of bringing out the best in individuals, small groups, year levels and the entire school. Essentially, they are a collection of positively framed statements devised by those who will be directly affected by them. Each class or grade begins the year by writing their own class Essential Agreement. It allows the students to discuss the type of actions and attitudes they need to have to achieve success in their learning both individually and collaboratively.

Below are the statements your child helped develop in their classroom and agreed to follow in 2017.

In 5RD, we will:

- Be curious, show enthusiasm and learn in creative ways.
- Show respect to all people and ourselves, and show tolerance for different individuals, cultures and ideas.
- Be confident in our learning and cooperate with others.
- Have integrity, being honest and fair in our words and actions.
- Be committed to learning the best we can and support others to do the same.

Integrity
