Essential Agreements 2017

Essential Agreements are a powerful way of bringing out the best in individuals, small groups, year levels and the entire school. Essentially, they are a collection of positively framed statements devised by those who will be directly affected by them. Each class or grade begins the year by writing their own class Essential Agreement. It allows the students to discuss the type of actions and attitudes they need to have to achieve success in their learning both individually and collaboratively.

Below are the statements your child helped develop in their classroom and agreed to follow in 2017.

In 6CV, we will:

- support and compliment each other as much as we can
- be ourselves and endeavour to work to the best of our ability
- work together and encourage one another
- persist in our learning even when things become challenging and bounce back with positivity when things don't go the way we want them to
- try to show patience and appreciate everyone for their individual differences
- approach our learning with positivity, enthusiasm and the eagerness to try new things
- attempt to be independent, committed and honest learners
- endeavour to be positive role models for others
- always use our manners, be polite and show respect for one another
- forgive and forget when we make mistakes
